KNOW THE WEATHER

By E. H. Sims

Is lightning likely to approach nearer when you see it to the south or in the southeast?

If you see lightning to the south or southeast, it is most likely to pass you by unharmed in most parts of the United States. In Florida or in some deep southern states— and even in other areas, ocasionally— this rule will not hold true.

The dangerous lightning storms usually come from the west, or the northwest. If you spot lightning in this direction, it would be wise to plan on its arrival and take whatever precautions are wise. This is the prevailing direction of weather and lightning storms follow the normal drift of the atmosphere.

Health and Beauty

There are all kinds of diets—reducing machines and medications you can indulge in designed to promote weight reduction.

The diets and pills are most often harmful, unless under the watchful eye of a doctor —and here we mean a registered M. D. The latest thing — the reducing machine —can be helpful and healthful.

These machines are good for the circulation and are an aid in spot reducing. In certain heart conditions they are used when other kinds of activity would be too much for the patient.

However, if you are in sound health, you will do much more for yourself if you will watch your diet and take planned exercises. You can spot - reduce in this way and keep your muscle tone all in one. Muscle tone is the secret of youth.

Americans have a great weakness -to an astounding degree- they want everything the easy way. A good body is not lightly come by. If you really use your common-sense, you will know that lying on a vibrating couch for several hours can never do for you what one-fourth that time spent in exercise can do.

It is no secret that Americans are falling behind in physical fitness. You read this in the papers all the time. Russian youths spend a great deal more time developing their bodies the proper way than our young people do.

Here in America, mothers take their children to school and pick them up. If the child wants to go to a movie, mother hauls. She hauls anyplace they want to go, until they are old enough to have a car, then, at last, the child drives himself. This is a terrible thing.

We must listen to our doctors of physical culture who tell us to walk, run, play, fill our lungs with fresh air. Stop sitting around the T.V. set and in dark movie houses. The exercise couch is just one more halfway measure for a healthy body.

BOY SETS 40-50 FIRES

Chicago.- A 10-year old-boy, who wants to be a fireman when he grows up, has admitted to police that he was responsible for setting 40 to 50 fires in the past eighteen months. Damage from the fires has been estimated at about $250,000.

THREE STRIKES

Bigfork, Mont.- Don't tell E. A. Miller that lightning never strikes twice in the same place. Within three minutes recently a telephone pole, a haystack and an open field, all within 100 feet of Miller's home, were hit by lightning bolts during a thunderstorm.

PET SHOOTS GIRL

Orleans, Calif.- Roberta Starritt, 17, was accidentally shot when her pet dog jumped off a couch, causing the .22-caliber rifle she had placed on the couch, to discharge. The bullet hit her in the stomach.

Subscription rate: $2.00 a year; payable in advance.

DISTRICT SCA MEETING

The District S. C. A. meeting, held at E. C. Glass High School, Lynchburg, was opened by the E. C. Glass Concert Band. Following this, Mr. L. H. McCue, Sr., Principal of E. C. Glass, gave a welcoming speech.

The keynote speaker was Kenneth White, president of E. C. Glass S. C. A., and chairman of the district S. C. A. He summarized his talk by saying that we, as Americans, should be more appreciative of the freedoms and abundance of things we are able to enjoy, and we should appreciate our fine schools, and our vast opportunities to learn.

After this there were various discussion groups.

At 11:15, a delicious lunch was served in cafeteria style. Then ten touring groups inspected the E. C. Glass school.

After touring the school, we reassembled in the auditorium for an account of the different discussion groups. Following this, a talk was given by Miss Elizabeth V. Lloyd, State Secretary of S.C . A.

The meeting was adjourned after a concert by the Glass Choir.
